

Agromey

*We Produce
For Healthier Generations*

About us

Agromey is one of the best representatives of the aquaculture sector by an accomplished integration of fish feed production, fish farming, fish processing and packaging facilities.

The improvement activities, performed with all departments by the new management and experienced staff, are approved by the quality standart certificates that have Global G.A.P., IFS, BRC, FDA and KOSHER.

Processing and Packaging Facility

The fish is packaged as natural or processed, under the supervision of expert consultants, as fresh chilled or frozen, at the plants are located in Aydın/Umurlu and İzmir/Karaburun Packaging Boat which are managed by the system of international quality standards.

Health and taste are under control...

Mediterranean Sea Bream

Sea Bream (*Sparus aurata*) is produced in Aydın/Akbük as main production and presented natural or processed for sale in domestic markets and abroad.

The fish is packaged in EPS boxes as fresh chilled or in master cartons as frozen which is generally processed as gutted or fillets.

Correct choice...

Fresh Chilled
Sea Bream Whole Round

We constantly increase the customer satisfaction by the viewpoint of the trademark with our reliable quality and competitive price advantage as the main producer and supplier.

Fresh Chilled Cleaned Sea Bream

Fresh Chilled Sea Bream Fillets PBO

Fresh Chilled Sea Bream Butterfly Fillets

Fresh Chilled Sea Bream Twinfling Fillets

Fresh Chilled Sea Bream Canoe Cut Fillets

Fresh Chilled Sea Bream Skinless Fillets

Mediterranean Sea Bass

Sea Bass (*Dicentrarchus labrax*) is produced in Izmir/Karaburun, as main production and presented natural or processed for sale in domestic markets and abroad.

Freshness, as the most ambitious criteria of Agromeyfish, is provided by the cold chain which starts with the harvest and under control until the products shipped.

First choice of chefs...

Fresh Chilled Sea Bass
Whole Round

Sea Bass, as a symbol of healthy Mediterranean taste, is delivered to the customers, as fresh as daily with rich natural values by the used technology and the quality standards.

Packaging Boat

Agromey actualized its floating packaging plant project on the ferryboat where the company is able to grade and package the fish as soon as it is harvested.

This project provides Agromey to supply fish in advanced quality and more freshness.

The freshest supply...

Fast delivery, worldwide...

Agromex operates with the principle of just in time logistic and supports its advanced quality, by the “Traceability System” until the last consumer.
